

"This is the very best Kydex holster I have EVER used..."

-Henk Iverson
STRIKE TACTICAL SOLUTIONS LLC

"C" SERIES COMPACT CONCEALMENT HOLSTERS

The "C" series of compact style holsters is our flagship. This product line is solely designed to maximize conceal-ability. The products of C series were carefully engineered during every step of the developmental process. From carry angle, appearance, material type and thickness, to construction method, we have designed this product line to perfection.

Features and Benefits:

- Precision machined panels moulded to fit the specific pistol.
- 0.093" thick Kydex® outer panel to maximize ruggedness; 0.06" thick kydex® inner panel allowing the weapon to be carried even closer to the body to maximize conceal-ability.
- Compact pancake style design cuts down the un-necessary material, makes this holster 30% lighter, trimmer than comparable leather holster.
- CNC machined belt slots fit 1.5" or 1.75" belt width.
- Engraved faux stitching for attractive leather like finish.
- Retension adjustable with a single hex screw. (A hex wrench comes with every holster package)
- Available in Black or Coyote Brown color.

"M" SERIES MODULAR HOLSTERS

The "M" series of products are designed around the MOdular Lightweight Load-carrying Equipment (MOLLE) system. All of our "M" series products are MOLLE compatible. This line of products is designed for custom order, each holster is built to a customer's specific request. We offer many belt and MOLLE attachment options for the "M" series products, making it one truly versatile and customizable line of products. In fact we are the only company make offers the MOLLE attachment as a standard option. If you want a holster that can be quickly changed from a belt holster to a MOLLE attached holster, "M" holster is exact what you are looking for.

Features and Benefits:

- Precision machined and moulded to fit the specific pistol.
- MOLLE compatible.
- Many attachment method:
 - Standard OWB (Outside WaistBand) belt loop
 - Low-Mount OWB belt loop
 - IWB (Inside WaistBand) belt clip
 - IWB soft loop
 - MOLLE attachment kit
- Available in Black or Tan color.

M

MAGAZINE & FLASHLIGHT POUCHES

Our mag & flashlight pouches utilize a modular design. The pouches can be attached on different backing plates for different belt width, in single, double and triple configuration. The mag pouches are tension adjustable and completely ambidextrous. Our rifle magazine pouches can be attached to backing plate for either belt loops or MOLLE system. It's a true customizable modular pouch system.
